UNITRON 80mm SPOTTING SCOPE FOR TERRESTRIAL & ASTRONOMICAL VIEWING

Unitron Spotting Scopes feature an 80mm air-spaced coated achromatic objective. This assures large fields of view clearly and sharply focused, free from distortion. Images are erect and non-reversed, in the same natural orientation as seen by the unaided eye. To meet individual preferences, several models of Spotting Scopes are offered as listed below. A variety of interchangeable and optional accessories expands versatility still further. Additional accessories are planned for future offering.

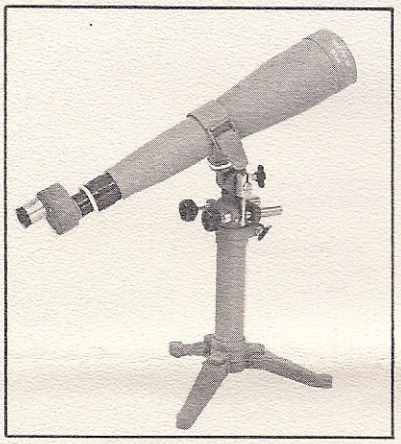

Above: 16536 Model Q Spotting Scope

PROD. NO. 16536

Unitron Model Q Spotting Scope complete as follows: 80mm Spotting Scope with 45° prismatic revolving quadruple eyepiece holder and helical fine focus control. Four eyepieces: 20X, 30X, 40X, 60X. Felt-lined quick release clamp threaded for tripod attachment. Sturdy table-top tripod with vertical and horizontal fast motion clamps, separate vertical and horizontal micrometer screw adjustments for precise motion, with folding tripod legs. Wood carrying cabinet with handle $215.00

PROD. NO. 16538 — Model QC same as above except without tripod and wood cabinet. Full description as follows:

Unitron Model QC Spotting Scope as follows: 80mm Spotting Scope with 45° prismatic revolving quadruple eyepiece holder and helical fine focus control. Four eyepieces: 20X, 30X, 40X, 60X. Felt-lined quick release clamp threaded for tripod attachment. (Tripod not included. We suggest using Model QC Spotting Scope with the accessory Field Tripod, or "C" Clamp listed below. Wood cabinet available as accessory.) $142.00
