NOTE!!

How To Use the Huygens 10 mm ~ 20 mm Combined Eyepiece

This combined eye-piece consits of 4 parts as illustration shows. It can be used H. 10 mm and 20 mm, but if all these parts are used simultaneously, it does not serve the purpose of an eyepiece, They must be assembled in either one of the following combnations.

A 1. 2. and 3. focal length 10 mm.

B 1. 3. and 4. focal length 20 mm.
